

English Reading Teacher

YueCheng Education

The purpose of YueCheng Education (YCE) is to provide a future-oriented education for the children of Chinese and expatriate families living in Beijing. Founded on a passion to challenge and empower young people to live fulfilling and productive lives, YCE opened Beijing City International School (www.bcis.cn) in 2005. With the support of the YueCheng Educational Research Institute (YERI), this innovative school has provided the bedrock for YCE to extend its not-for-profit services to a wider community. The Learning Frontier (www.learningfrontier.cn) provides specialist support for children with learning and developmental needs, and the recently opened Reading Frontier (www.readingfrontier.com) inspires in children a passion for reading for life. YCE has now begun the construction of a network of Frontier Kindergartens, mainly for Chinese children. The strength of YCE lies in the quality of its international and Chinese staff, and the mutual support extended between the different but complementary institutions. YueCheng Education is an equal opportunity employer.

Reading Frontier

The purpose of The Reading Frontier (RF) is to nurture in students a passion for reading and to teach the skills and habits required to maintain this passion throughout life. The program is intended for students aged four to twelve.

RF is an innovative, inquiry-based program in which students are motivated to channel their natural curiosity through the guided investigation of topics of great personal interest. In this way students harness the power of reading to enhance their critical and creative thinking skills. At the end of the program each student applies their new learning by presenting a creative project of their choice.
